Termites may eat you out of house and home and really can't be ignored. We understand termite behavior and biology, and that's where the Sentricon® system comes in. Sentricon eliminates the entire subterranean termite colony and continues to protect against future invasions. Avoid the costs, headaches and hassles of repairing your home after termite damage. Instead, proactively install the Sentricon system. Certified Sentricon Specialists® place bait stations around your home to give you complete protection 24/7/365 – and termites like the bait nearly 10 times more than wood!
