STANDALONE SOLUTION

TERMITES DON'T STAND A CHANCE

**Abolish the colony with Recruit® AG
Flexpack™ termite bait.**

Recruit® AG FlexPack™ termite bait is the latest innovation termites loathe. Designed to be even tougher on termites and easier on your home than other in-home treatments, it brings the power of the Sentricon® system above ground and hits termites where they're hitting your home hardest.

Crawl spaces, kitchens, indoors, outdoors. Anywhere.
Say goodbye to these prehistoric destroyers for the last time.

ELIMINATES TERMITE COLONIES AND PROTECTS YOUR HOME

Recruit® AG Flexpack™ termite bait eliminates colonies. You can count on it.

- Used when and where subterranean termite activity is accessible/visible above ground.
- Speeds up colony elimination through direct and immediate bait availability to termites.
- Eliminates termite colonies and protects your home.
- Can use indoors and outdoors, including on trees.
- Can use in kitchens, pantries and all living spaces.
- Labeled for use in sensitive sites, including food manufacturing, food preparation and food service areas.
- Soft, flexible cover option has the ability to mount around pipes, in corners and in tight spaces.
- Hard case option is ideal for flat surfaces or high-traffic areas.
- Can be temporarily installed and removed after termites are eliminated.
- Can help to close home sales, since they can be installed immediately, if termites are active.
- Complete termite protection, in ground and above ground.

SOFT, FLEXIBLE COVER mounts easily around pipes, in corners and tight spaces.

Recruit® AG Flexpack™
TERMITE BAIT

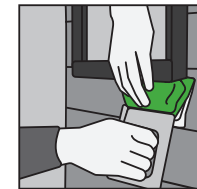

HARD CASE is ideal for flat surfaces or high-traffic areas.

1. INSPECT

A Certified Sentricon Specialist™ checks for signs of termites.

2. INSTALL

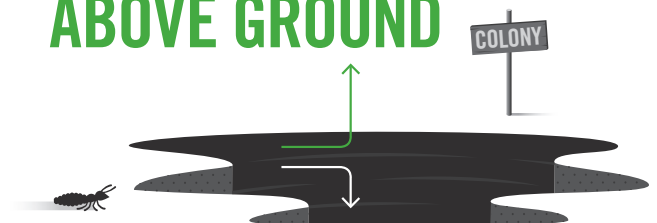

Stations are placed around your home, and the bait immediately begins working.

3. SERVICE

Ongoing CSS service ensures there is enough active bait to eliminate colonies.

COMPLETE TERMITE PROTECTION, ABOVE GROUND

AND IN GROUND
